## 1 Visualisation with Tableau

Author: Wessam Alhallak

### 1.0.1 Data Set

The Dataset can be downloaded from this link [Proposer Loan Data](#)

This data set contains 113,937 loans with 81 variables on each loan, including loan amount, borrower rate (or interest rate), current loan status, borrower income, and many others.

### 1.1 Visualisation

The data set has alot of variable to get Visualisation for all variable it will take alot of time I will just try to get a story form this data set with some of dash boards each dash board will cover a varaible and realtion ship with some other

the link for this Visualisation is [Visualisation with Tableau](#) I hope you will like it
